11 Significant Deviation

The earnings per share (EPS) for first quarter ended 30 June 2018 decreased from same period of previous year as a result of increase in price of key raw materials and adverse foreign exchange rate which could not be fully adjusted with product price because of market reality.

The net operating cash flow per share (NOCFPS) decreased significantly from same period of previous year mainly because of increase in the payment to suppliers due to increase of key raw materials prices. Inventories and receivables also increased as a result of slow down of sales and collection because of incessant torrential rainfall and tight liquidity situation in the country.
