## PREPARATION METHOD FOR BREATHE EASY VIRACARE

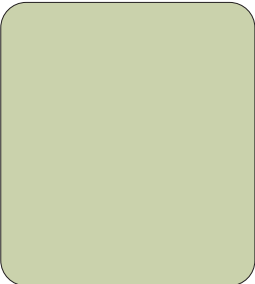

-  Surface must be clean, and free from dust, grease, oil, heavy soot, chalk, mildew, etc with sandpaper
-  On dry wall apply one coat Breathe Easy Sealer thinning with 100% water. Dry the wall at least 4 -6 hrs before putty application
-  For smooth finish apply two coats of Breathe Easy Putty with 6-8 hrs interval
-  After proper drying (24 hrs) of putty, rub down the surface with sandpaper to provide a smooth surface for finish coat
-  Apply one coat Breathe Easy Sealer thinning with 100% water as prime coat
-  Apply 2 coats Breathe Easy ViraCare as finish coat with an 24 hrs interval
